PROFILE

Platform engineer with ten years in IT and infrastructure, the last eight building CI/CD pipelines and running Kubernetes in production. I like boring, well-tested infrastructure.

EXPERIENCE

Senior DevOps Engineer | Copperleaf Systems | Mar 2021 - Present

- Moved 40 services from hand-built VMs to Kubernetes (EKS), managed with Terraform
- Cut median deploy time from 25 minutes to 6 with GitHub Actions caching
- Ran the on-call rota and wrote the incident runbooks

DevOps Engineer | Kestrel Freight Ltd | Jun 2018 - Feb 2021

- Built the first CI pipelines for a 30-person engineering team
- Introduced Prometheus and Grafana monitoring

IT Support Analyst | Harbourline Retail | Sep 2016 - May 2018

- Supported 300 staff across 12 stores
- Automated new-starter accounts with PowerShell

EDUCATION

BSc (Hons) Computer Science, 2:1
University of Leeds, 2013 - 2016

SKILLS

Cloud: AWS, GCP
Containers: Kubernetes, Docker, Helm
Infrastructure as code: Terraform, Ansible
CI/CD: GitHub Actions, Jenkins
Languages: Python, Bash, Go
Observability: Prometheus, Grafana
